

# Clear Out Our Cookies, Cache, and More!

Is your computer running slow? Have you cleared your stored data out lately? Are you having other problems? Every once in a while, it is a good idea to clear your browsing data. It can help with speed and other problems you may be experiencing.

## How do you do this?

(Select your browser below to jump to that section)

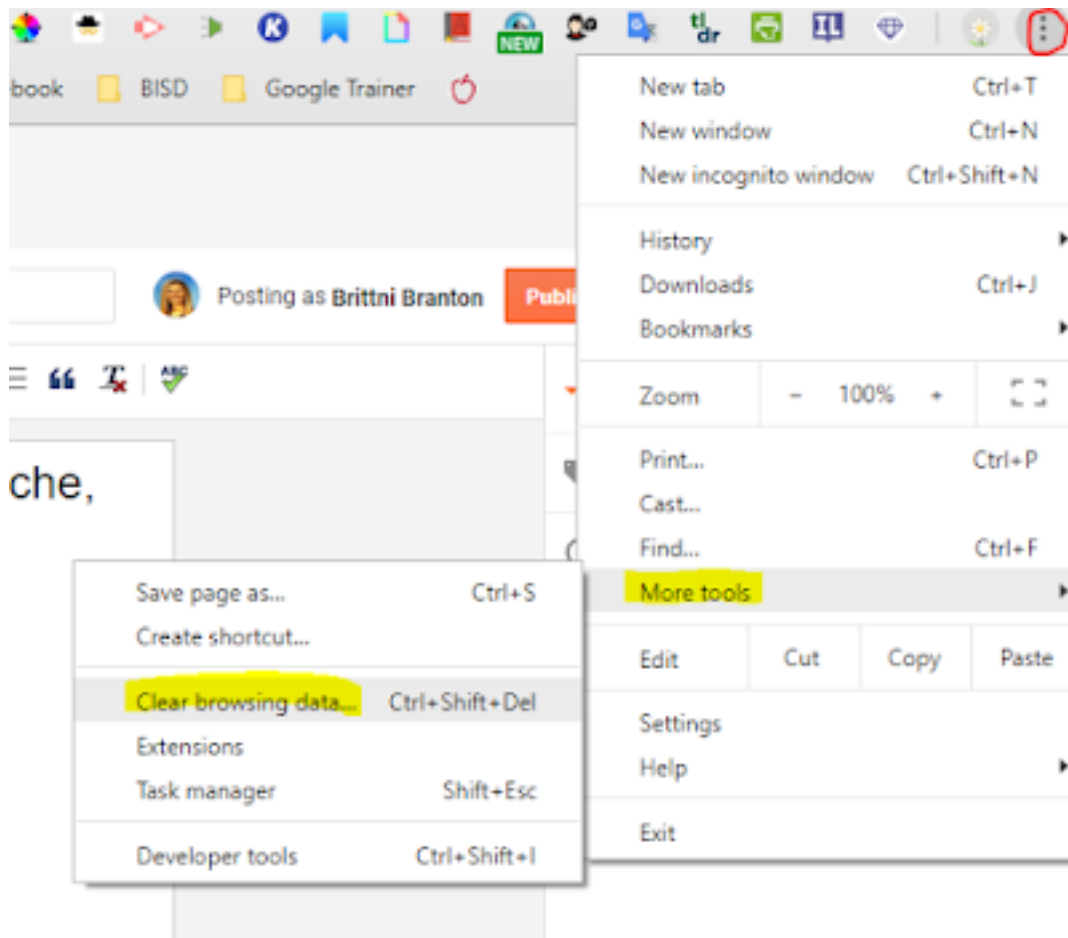

[Chrome Browser](#)

[Firefox Browser](#)

[Edge Browser](#)

[Internet Explorer Browser](#)

## Chrome Browser:

1. In the Chrome Browser, click the three dots (top right corner).
2. Click "More Tools" from the drop down menu.

3. Click "Clear browsing data" from the next menu.

4. Go through basic and clear out from "All Time" setting.

5. Then go through advanced and clear out from "All Time" setting.

\*It may take a little time to do this, but it is worth it! Remember if you check passwords, it will clear any saved passwords you have stored.

Clear browsing data

Basic Advanced

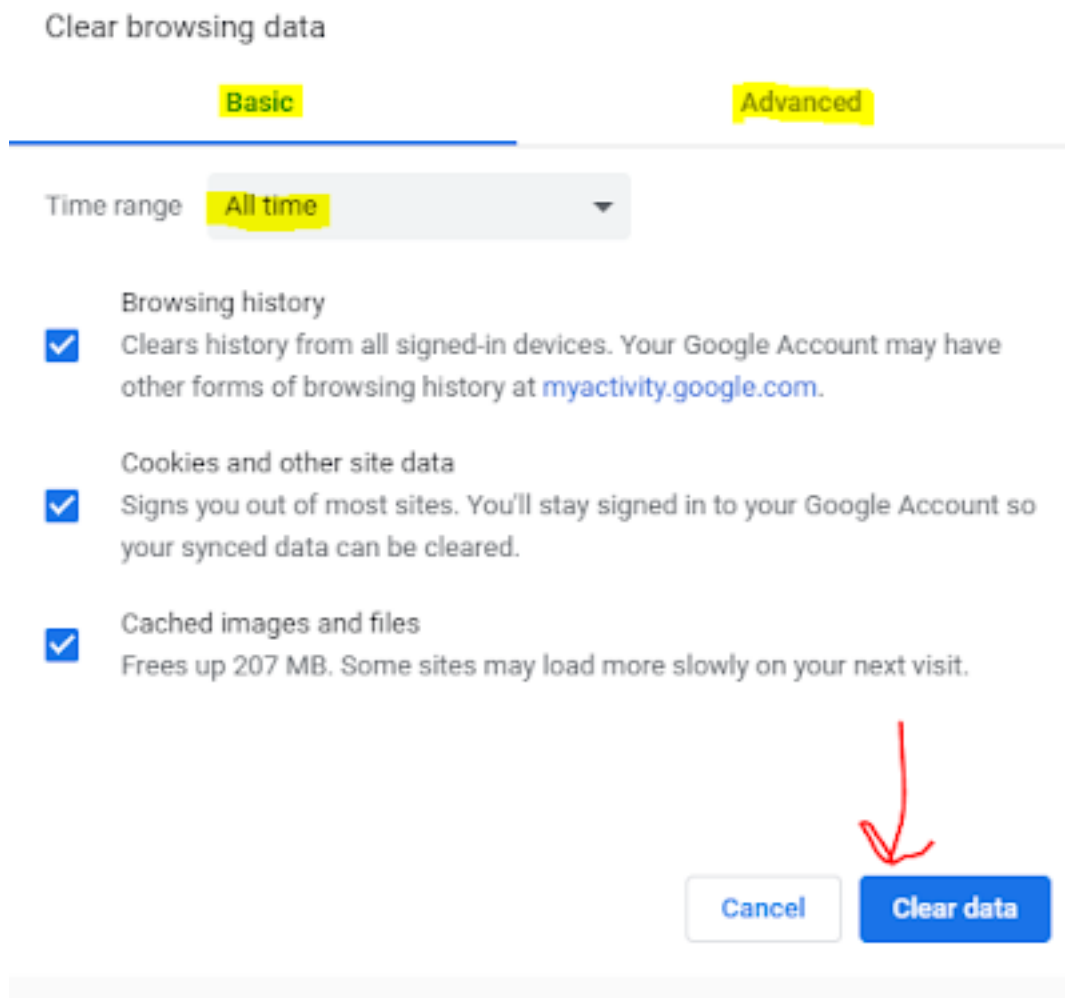

Time range All time

Browsing history  
Clears history from all signed-in devices. Your Google Account may have other forms of browsing history at [myactivity.google.com](https://myactivity.google.com).

Cookies and other site data  
Signs you out of most sites. You'll stay signed in to your Google Account so your synced data can be cleared.

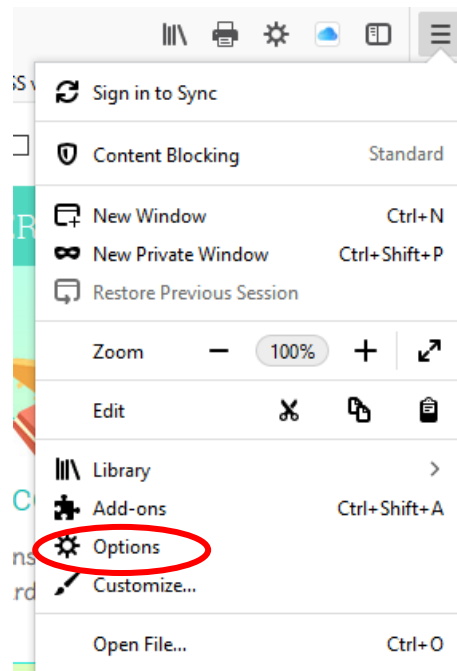

Cached images and files  
Frees up 207 MB. Some sites may load more slowly on your next visit.

Cancel Clear data
